

TAHOE AMATEUR RADIO ASSOCIATION

HAM CRAM and LICENSE Exam Session **Earn your Amateur Radio Technician License in** **ONE DAY!**

Saturday, April 20th at 9:30AM
Barton Hospital, 2170 South Ave.,
South Lake Tahoe, CA 96150

The “CRAM” consists of reviewing (reading) all the questions in the Q&A license manual followed by reading the correct answer ONLY. Upon completion, the exam is immediately administered to the class.

The Cram and Exam will require your attendance until 4:30PM.

Please bring your own lunch and beverages.

This method has proven itself with over a **90% pass rate IF the participants have studied the material before.** In depth pre-study is preferred, but just familiarizing yourself with the questions and answers will greatly benefit your chances for success.

We will be using the A.R.R.L Tech Q&A 7th Edition for the class read through. The Book is available at www.arrl.com and amazon.com for \$17.95. A kindle version is also available.

Again, it is highly recommended that you purchase a book and take the time to read and study the contents. The “Cram” works well at “imprinting” the exam answers, but the more you expose yourself to the structure of the question and answers, the better your chances.

Please Note: *A valid legal photo ID is required. The FCC requires us to collect either your Social Security Number OR a Federal Registration Number with your license application. To obtain an FRN, go to www.fcc.gov and click on CORES in the left hand column. Follow the directions to obtain your FRN. Be sure to have this number in your possession before attending the session if you'd rather not give out your SS#.*

ALSO: The “HAM CRAM” is free. The **cost of the actual exam is \$15.** If time permits, a re-test may be offered but will require an additional \$15.

More information (including online practice test web sites) is available on the Tahoe Amateur Radio Association web site at:

<http://TahoeAmateurRadio.com>

Please contact me and make a reservation for the Ham Cram

As our session has “Sold Out” the last two years!
